

SECOND / THIRD READINGS SUMMARY SHEET

ZONING CASE NUMBER: C14-2009-0012; Highland Vertical Mixed Use—Opt-In/Opt-Out Application

REQUEST:

Conduct a public hearing and approve second/third readings of an ordinance amending Chapter 25-2 of the Austin City Code by rezoning selected tracts within the Highland Neighborhood Planning Area with the vertical mixed use building “V” designation and amending the boundary of the vertical mixed use overlay district to exclude selected tracts.

The Highland Neighborhood Planning area is bounded by Twin Crest and Middle Fiskville Road to the east, Koenig Lane to the south, Lamar Blvd to the west, and Hwy 183 on the north. (Tannehill-Urban; Waller Creek- Urban; Buttermilk Branch- Urban watersheds)

DEPARTMENT COMMENTS:

The VMU Overlay District includes approximately 92.87 acres. The Highland Neighborhood Planning Team recommended amending the boundaries of the VMU Overlay district to exclude only 1 parcel (0.337 acres) from the district and to Opt-In 51 Parcels (123.71 acres) into the VMU Overlay district. The recommendation is not entirely consistent with the Future Land Use Map adopted in May 2004 which designates some of the VMU Overlay district parcels and Opt-In parcels as commercial and office. The VMU Overlay district parcels and Opt-In parcels that have commercial and office future land use designations on the Highland Neighborhood Plan FLUM are the subject in the accompanying plan amendment case, NPA-2009-0018.01.

ISSUES:

Tract 8 (5.68 acres) is State owned property which was inadvertently included in the VMU Overlay District and has been removed from the VMU Overlay District and the VMU Opt-In/Opt-Out application process by Staff.

Correspondence from adjacent residents is attached to the back of the staff packet.

APPLICANT: City of Austin, Neighborhood Planning & Zoning Department

AGENT: City of Austin, Neighborhood Planning & Zoning Department (Victoria Craig)

NEIGHBORHOOD RECOMMENDATION

The Highland/Skyview Neighborhood Planning Contact Team met on May 13, 2007 to make recommendations on the vertical mixed use opt-in/opt-out process. At that time, consensus was achieved to apply all VMU bonuses with an 80% median family income affordability level to all properties in the Highland VMU Overlay district with the exception of one property, Tract 4, to be excluded. In addition the Neighborhood Planning Contact Team agreed to Opt-In certain properties that are in the mixed use overlay as well as some commercial and office zoned properties not in the mixed use overlay. See attachments for more information.

BACKGROUND

On August 31, 2006, the City Council adopted the "Design Standards & Mixed Use" ordinance as Subchapter E of Chapter 25-2 of the City Code. Most of the provisions of the ordinance went into effect on January 13, 2007. However, a separate process and schedule was established within the ordinance for Vertical Mixed Use.

The VMU Opt-In/Opt-Out process provides an opportunity for neighborhoods to offer recommendations regarding the location and development standards for Vertical Mixed Use Buildings. The primary focus of this process is on property fronting certain major arterials defined as Core Transit Corridors; however, other properties may also be eligible for VMU. With some exceptions, properties fronting on a Core Transit Corridor are eligible for VMU unless "opted-out". Properties not fronting on the Core Transit Corridors are not eligible for VMU unless "opted-in".

As part of the Vertical Mixed Use (VMU) Opt-In/Opt-Out process the city of Austin was divided into approximately 80 neighborhood planning and/or VMU application areas. Over the next several months each of the application areas affected by the VMU process will be the subject of a zoning case. The Planning Commission will review these cases and provide recommendations to the City Council who will make the final determination as to the applicability of VMU. Zoning case C14-2009-0012 is the final step in the Vertical Mixed Use Opt-In/Opt-Out process for the Highland application area.

Impervious Cover

The maximum impervious cover limits for the proposed zoning districts are as follows:

LI, Limited Industrial Services	80 %
CS, Commercial Services	95 %
CS-1, Commercial – Liquor Sales	95 %
W/LO, Warehouse Limited Office	70%
GR, Community Commercial	90 %
LR, Neighborhood Commercial	80 %
LO, Limited Office	70 %

MH, Mobile Home	N / A
MF-4, Multifamily Residence Moderate – High Density	70%
MF-3, Multi-family Residence (Medium Density)	65 %
MF-2, Multi-family Residence (Low Density)	60 %
SF-6, Townhouse & Condominium Residence	55%
SF-5, Urban Family Residence	55%
SF-3, Family Residence	45 %
SF-2, Single Family Residence – Standard Lot	45 %
P, Public	varies (refer to the <u>Land Development Code</u>)

The maximum amount of impervious cover is determined as the more restrictive figure of the zoning district and watershed class.

Transportation

Additional right-of-way (ROW) necessary for future roadway improvements within the proposed zoning may be required during the subdivision review process or the site plan review process.

Since the rezoning of this area is being initiated by the City of Austin through the neighborhood planning process and does not reflect a specific development proposal, no trip generation calculations are provided on a tract-by-tract basis for any proposed land uses as would typically be provided.

A Traffic Impact Analysis (TIA) will be required during the site plan review stage for any proposed land use that would generate over 2,000 vehicle trips per day. Additional ROW, participation in roadway improvements, and/or limitation on development intensity may also be recommended based on review of the TIA.

Water and Wastewater

The area is served with City of Austin water and wastewater utilities. If water or wastewater utility improvements, or offsite main extension, or system upgrades, or utility relocation, or adjustment are required, the landowner, at own expense, will be responsible for providing. Also, the water and wastewater utility plan must be reviewed and approved by the Austin Water Utility. The plan must be in accordance with the City design criteria. The utility construction must be inspected by the City. The landowner must pay the associated City fees.

Compatibility Standards

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540-feet or less from property in an SF-5 or more restrictive zoning district/use will be subject to compatibility development regulations.

Meeting Minutes

Meeting Date: 5/13/2007

Attendees: asterisk (*) indicates voting eligibility

Katrina Daniel*

Jeffrey Hitt*

Bill Cornish*

Shiloh Hartman

Damon Howze*

The second meeting of the Highland/Skyview Neighborhood Planning Contact Team (H/S-NPCT) was called to order at approximately 5:00pm.

Discussion Items

Vertical Mixed Use:

Attendees engaged in extended discussion and review of the vertical mixed use (VMU) ordinance, its detailed provisions, and its application to the Highland and Skyview neighborhoods.

Attendees specifically discussed the application of VMU to the area around Dillard Circle, properties at Guadalupe and Airport and along Huntland Dr. that are currently commercial without a mixed use overlay, and the mixed use properties along St. Johns. Attendees marked a map of the area to indicate VMU designations. The map will be preserved as a part of the meeting record.

J. Hitt made a motion to apply the default VMU provisions (including all incentives (dimensional standards, parking reductions, and additional ground floor uses in office base district zoning) and the 80% median family income affordable housing component) to all properties in the Highland and Skyview neighborhoods where current zoning includes the mixed use overlay, as well as commercial properties currently without mixed use overlay near the intersection of Guadalupe and Airport, on Huntland Dr., surrounding or near Highland Mall, and along Guadalupe south of Denson (TXDOT properties) and excluding only 6701 Guadalupe (corner of Guadalupe and Canon) which is currently a single-family residence.

K. Daniel seconded the motion.

The motion passed 4 – 0.

K. Daniel asked that minutes specifically reflect that notification of this meeting was made in accordance with the bylaws, and that no objections to the meeting had been received.

Chair directed the Secretary to prepare the VMU application for submittal to city by 6/4/07.

Adjournment

Meeting adjourned at approximately 7:00pm.

INFORMATION ON PUBLIC HEARINGS

THE NEIGHBORHOOD PLANNING AND ZONING DEPARTMENT HAS FILED AN APPLICATION TO IMPLEMENT THE VERTICAL MIXED-USE (VMU) LAND USE REGULATIONS. THIS NOTICE HAS BEEN MAILED TO YOU BECAUSE YOU OWN PROPERTY, ARE A REGISTERED ENVIRONMENTAL OR NEIGHBORHOOD ORGANIZATION, OR HAVE A UTILITY SERVICE ADDRESS WITHIN 500 FEET OF A VMU ELIGIBLE PROPERTY.

This request for zoning/rezoning will be reviewed and acted upon at two public hearings: First, before the Planning Commission and then before the City Council. After a public hearing, the Planning Commission reviews and evaluates City staff recommendation and public input and then sends its own recommendation on the proposed VMU land use regulations to the City Council. Meeting dates and locations are shown on this notice.

During its public hearing, the board or commission may postpone or continue an applicant's hearing to a later date. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

Comments I do not want this in my neighborhood.

It needs to remain single family one-story houses with yards.

Re: Case: NPA-2009-0018-01 (Amend Highland Area). File: C14-2009-0012 (Highland)

Dear Ms. Craig:

First, I strongly object to the short notification regarding this massive proposal affecting my neighborhood – I only received this notification letter on April 4th, leaving less than 10 (ten) days before the Planning Commission hearing.

How do you expect local residents to read, digest, and respond to such a massive proposal as outlined in such a short period of time? Do you not put any consideration into such matters?

Secondly, regarding this proposal, I **strongly object** in current form. The Planning Commission should also **STRICTLY REQUIRE uniform building design guidelines**, uniform “**architectural standards**” and Austin-esque “**aesthetic restrictions**” on exterior colors and building materials on new building development and/or remodeling in these proposed areas in the Highland Neighborhood.

Most upper middle class areas in the “nice areas” of the suburbs have similar design restrictions (i.e. a McDonald’s and or other commercial enterprises, such as gas stations, must conform their exterior colors/sizes) to fit in within the surrounding neighborhood.

If you DO NOT require such standards, developers/owners of these businesses (who do NOT live in the area) will build their cheap, lowest cost, mass market buildings and make the area look ugly and unattractive, just like most other areas of the United States.

I didn’t move to Austin to live in another mass market, fast food corridor. New development can be a positive step forward in the Highland area if such design standards **are strictly required**.

If this is not possible, I STRONGLY OBJECT to the proposal as outlined.

Thank you,

Monte Robison
